ABOUT

First Class Honours graduate in Bachelor of Science (Honours) in Software Engineering with one year of hands-on experience in Quality Assurance. Strong foundation in manual and automated testing, with practical experience using Selenium, Playwright, UiPath, Jira, and Postman. Demonstrates a proactive approach to continuous learning and professional development, and is seeking opportunities to strengthen technical expertise through postgraduate study or industry roles.

EDUCATION

Bachelor of Science (Honours) in Software Engineering
University of Colombo School of Computing (UCSC)

MAY 2021 - MAY 2025

Grade: First Class

GPA: 3.71 / 4.00

Relevant Coursework : Data Structures and Algorithms , Database , OOP , Mathematical Methods , Discrete Mathematics , Probability and Statistics , Software Engineering , Software Quality Assurance.

CERTIFICATIONS

- **ISTQB® CTFL** – Foundation Level Software Testing Certification
OCT 2025
- **Object-Oriented Programming Concepts 1** - Java Institute - JUNE 2021

● **Legendary-octo-run**

Technology used: GDScript

A 2D game in Godot with three progressive levels, implementing animated sprites, multiple backgrounds, and integrated sound effects. Utilized signal-based event handling, physics interactions, and scene management, applying game design principles and narrative structure to create an engaging player experience.

EXPERIENCE

Creative Software, Colombo — *Quality Assurance Engineer*
OCT 2024 -Present

- Designed and executed manual test cases based on functional and non-functional requirements.
- Performed regression, smoke, and sanity testing to ensure system stability.
- Identified, documented, and tracked bugs using tools like JIRA.
- Collaborated with developers and product owners to verify bug fixes.
- Contributed to improving software quality and release reliability.
- Designed and executed automation test cases on Desktop /Web app.
- Creating the test plan and test Designs.

- **Advanced Certification in English Language – NIBM**
SEP 2019 - FEB 2020

AWARDS & ACHIEVEMENTS

- **Dean's List** – 3rd Year, 1st Semester, UCSC
- **Merit Award** – University of Colombo Colors (Basketball)

PROJECTS

- **Akuru Mithura (Research Project)**

Technology used:

React-native, Firebase, Python
Developed a mobile application to improve Sinhala writing skills for dyslexic students using gamification and personalized learning. Conducted literature review, requirement analysis, and thesis research, and received recognition from the Ayati Center Research Committee for innovation and impact.

- **Builtrackr (3rd year group project)**

Technology used:

React, Node.js, PostgreSQL, React Native
BuilTrackr is a platform created for construction companies to manage cross-site task scheduling, resource management, communication, and collaboration.

- **Portfolio Website**

Technology used:

JavaScript, CSS, HTML

A modern, interactive portfolio website built with React and Vite, showcasing professional work, skills, and services with premium design aesthetics and smooth animations. Implemented responsive design for seamless viewing across devices and integrated interactive UI components to enhance user engagement. Optimized site performance and accessibility, following best practices for modern web development.

Creative Software, Colombo — *QA Intern*

NOV 2023 - JUN 2024

- Assisted senior QA engineers in test planning and execution.
- Conducted manual testing for web applications.
- Logged defects with clear reproduction steps and evidence.
- Gained exposure to SDLC and Agile/Scrum workflows.

TECHNICAL SKILLS

Testing Tools :

- Selenium, UiPath, Jira -Zephyr Squad, Postman, Playwright, Cypress

Programming Languages:

- Java, JavaScript, PHP, C, Typescript

Web Technologies:

- HTML, CSS, React, Node.js

Databases:

- MySQL, PostgreSQL

LANGUAGES

- Sinhala -Native
- English
